

What is said of them:

'Single Image Theatre pick up a brief, understand it from the inside, and then respond fully, often spontaneously and always appropriately. They draw the best out of everyone they work with, humorously, stylishly, accurately. They hit the target.'

David Boddy, Senior Partner, Farsight Management

'Single Image have been an integral part of our courses for teachers through their investigation of the spoken word. They inspire, direct and expand on teachers' knowledge of the world of storytelling. Through speech and action and full participation the great stories come to life. Contact with these characters would change the way both teachers and pupils feel, think and act.'

Paul Moss, Head Teacher and Education Renaissance Trust. Chair of I.S.A.
